CRW ENGINEERING GROUP WELCOMES NEW PRINCIPALS

February 1, 2019, Anchorage, Alaska – CRW Engineering Group, LLC (CRW), a local engineering and land surveying firm, recently promoted two long-term employees to the position of Principal.

Justin Keene, PE, is a lifelong Alaskan and began at CRW in 2000 as a summer intern before joining full-time in 2003. Since then, he has served as a Project Manager/Engineer on a variety of civil engineering projects throughout Alaska involving transportation, site, and utility (water, sewer, and storm drain) infrastructure. Justin works with an emphasis on thoroughly understanding his client's expectations and producing accurately designed construction documents within budget and to the highest standards. He is currently a member of the Institute of Transportation Engineers and holds a Bachelor of Science degree in civil engineering from Montana State University in Bozeman.

Anthony Robinson, PLS, CFedS, is a Senior Land Surveyor and Certified Federal Surveyor with over 22 years of experience leading field surveys and mapping for design, right-of-way, land/site development, and construction projects. He has served as a field survey technician, crew chief, office survey technician, and survey manager. After receiving his PLS registration, Anthony was a partner in a land surveying firm in Ohio; he performed and managed survey crews throughout the eastern United States; and was licensed in eight states. He is also CRW's Chief Drone Officer and a FAA-Certified Unmanned Aerial Vehicle pilot. Anthony has worked throughout Alaska, specializing in land surveying in remote areas. He graduated from Michigan Technological University with a Bachelor of Science in land surveying and an Associate of Applied Science in civil engineering. He joined CRW in 2008.

D. Michael Rabe, PE, Managing Principal, said, "CRW is committed to promoting from within and cultivating our 'home-grown' talent. Justin and Anthony have the knowledge and experience to help us grow the firm and meet future challenges." The additions of Keene and Robinson to the CRW leadership team brings the number of principals to 13.

CRW Engineering Group, LLC, is a full-service engineering and land surveying firm based in Anchorage, with a branch office in Palmer. Founded in 1981, our goals are to serve clients with dedication and responsiveness and help make Alaska communities better places to live. With a staff of 77, and 37 years of experience in urban, and rural projects, CRW offers expertise in a wide variety of professional services, including civil, mechanical, electrical, structural, and geotechnical engineering; and land surveying.
