### **Coffman Engineers' Anchorage Office Welcomes New Electrical Engineering Staff**

**ANCHORAGE** (November 21, 2019) – Coffman Engineers, Inc. (Coffman) Welcomes two new members to the Anchorage Electrical Engineering Instrumentation and Controls department.

Jason Vukovich is an Instrumentation and Controls designer with over 10 years of engineering experience in Alaska. His project experience includes Rail/Truck Racks, Coker Safety Upgrade and Remote Un-heading, Ethanol Unloading and Storage, Refining Unit SIS Upgrade & Triconex Installations, Tank High Level Alarms, Onsite Small Projects, and Pipeline Heating Re-circulation.

Prior to starting in the engineering and construction industry, Jason was a decorated officer of over 10 years in the U.S. Army & U.S. Army Reserve.

Jason holds a Bachelor of Fine Arts in Sculptor from the University of Illinois. He enjoys creating art in many forms in his spare time. Recently Jason was selected for his second commissioned painting for the Alaska Railroad. Entitled "Journeys," the vibrant artwork features a train crossing a steel bridge and a river waterfall with salmon swimming upstream on their annual journey.

Ronald Pearson, PE is a Professional Chemical Engineer working in our Anchorage Electrical Engineering department. Ron holds a Bachelor of Science in Chemical Engineering minoring in Electrical Engineering and Mathematics from the Colorado School of Mines. Ron has over 13 years of engineering in the oil and gas industry. Ron has extensive experience with both design of new and renovation of electrical systems for onshore and offshore oil and gas developments. Additional skills Ron brings to Coffman are hydraulics, thermodynamics, heat transfer/exchanges, process modeling and simulation, piping and instrumentation design, utility design, and SCADA system development.

When Ron is not working, he enjoys aircraft maintenance and aerobatic flying in his biplane.

#### **About Coffman Engineers**

Coffman Engineers is celebrating 40 years of providing clients with multidiscipline engineering solutions. Our services include civil, structural, mechanical, electrical, fire protection, and corrosion control engineering along with project management, commissioning, process piping, instrumentation and controls, alternative and renewable energy, and land surveying services.- Coffman's 530 employees serve clients across the U.S. and overseas from offices in Anchorage, Alaska; Atlanta, Georgia; Bay Area, Los Angeles, Orange County, and San Diego, California; Bozeman, Montana; Charleston, South Carolina; Fulton, Maryland; Hagatna, Guam; Honolulu, Hawaii; Portland, Oregon; Burlington, Seattle, and Spokane, Washington; and Denver, Colorado.
